The Southwest Research Institute will be holding its annual Graduate Program Tour Day on October 22nd from noon to 4 pm.

The joint Southwest Research Institute/University of Texas at San Antonio graduate program offers M.S. and Ph.D.s in Space Physics. Research areas include: Astrophysics, Atmospheric Physics, Cometary Physics, Ionospheric Physics, Magnetospheric Physics, Planetary Science, Solar & Heliospheric Physics, and Space Flight Instrumentation.

Southwest Research Institute is located in the beautiful city of San Antonio. San Antonio is home of the historic Alamo and the River Walk which intersects museums and other culture sites. Surrounded by the natural beauty of the Texas Hill Country, San Antonio is also only about an hour from Austin, the capital of Texas and the “live music capital of the world”.

Tour Day will consist of presentations on the exciting work being done at SwRI, tours of our state-of-the-art space flight hardware facilities, and a meet and greet with the current Graduate students!

Lunch will be provided!
